Sixth Important Update 2024-PRMP-MES-EE-004

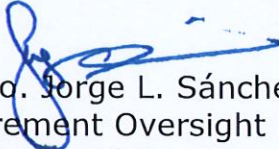

This notification¹ has the purpose of clarifying PRMP's answers to questions 5, 22 and 35 from the 2024-PRMP-MES-EE-004 QA document. The modified answers read as follows:

5. Only future Subscription and Support (S&S) should be included for Cúram, DB2, Websphere, and Infosphere software (lines 1-24 from Figure 1 in the Fifth Important Update). The costs should be for years two through six. Vendors are responsible for providing all licensing costs for other software.

The Microsoft Azure Government cloud MEDITI3G tenet (all environments) may be transferred from the incumbent vendor to the new vendor as a direct pass through to PR if a vendor chooses this approach for their solution. Hosting costs should be included for years two through six.

22. Please reference the updated response to question five (above). See Figure 1 from the Fifth Important Update.
35. Please reference the updated response to question five (above). See Figure 1 from the Fifth Important Update.

The Microsoft Azure Government cloud MEDITI3G tenet (all environments) may be transferred from the incumbent vendor to the new vendor as a direct pass through to PR if a vendor chooses this approach for their solution. The vendor is responsible for including all licensing costs required for their solution. Hosting costs should be included for years two through six.
