

DEPARTMENT OF HEALTH GOVERNMENT OF PUERTO RICO MEDICAID PROGRAM

First Important Update 2025-PRMP-NNNPS-OCS-002

This notification has the purpose of informing interested vendors that they should consider the following clarifications regarding **2025-PRMP-NNNPS-OCS-002**:

1. The RFPs cited in the first requirement on page seven (7) of the notifications pertained to surveillance services, while this notification is for cleaning and maintenance. Instead, the first requirement should be read as follows:

“Be an awardee contractor in the ASG’s Request for Proposals 22-1103 or 23J-17240 Multiple Selection Contract for the Acquisition of office cleaning, maintenance of green areas and parking lots for all Governmental, Exempt Entities and Municipalities of the Government of Puerto Rico.”

2. Vendors should participate only for the portion that they are certified by the Administration of General Services (AGS), whether it is 22-1103, 23-17240 or both. Vendors are to hand in, with their proposal, their certification as awardee for each RFP that the vendor is certified for.

Interested vendors must be advised that they should take the contents of this update into consideration for their responses. If a vendor does not adhere to the contents of this update, it could have adverse effects on their proposals or lead to disqualification.
